BIOGRAFIA

Davide Pisapia | ALTEREGO

Davide Pisapia, in arte Alter Ego, è un artista italiano nato a Napoli il 23 Giugno 1988 dove vive e realizza le sue opere.

Dopo essersi diplomato al Tecnico Industriale, inizia a lavorare come geometra nell'impresa di famiglia ed apprende sul campo l'arte dei carpentieri.

Da questo primo approccio di tipo "industriale", inizia a realizzare nel 2014 i suoi primi lavori in ferro di oggettistica e design. Questo sarà l'anno in cui sceglierà la scultura come linguaggio principale della sua poetica.

La voglia di dare libero sfogo al richiamo incondizionato ed inarrestabile del creare forme, lo porta a realizzare opere il cui intento è quello di condurre al disvelamento del proprio e dell'altrui alter ego, a cui si ispira lo pseudonimo dell'artista.

Il suo linguaggio scultoreo è caratterizzato dalla trasparenza delle forme che lasciano attraversare la luce, dagli specchi per rivedere se stessi e dai colori vivaci per stimolare la mente.

Il fine della sua ricerca, dunque, è di condurre alla comprensione di un codice emozionale personale, quello più remoto e sensibile, poiché in parte legato all'infanzia ed in parte ad un presente talvolta opprimente.

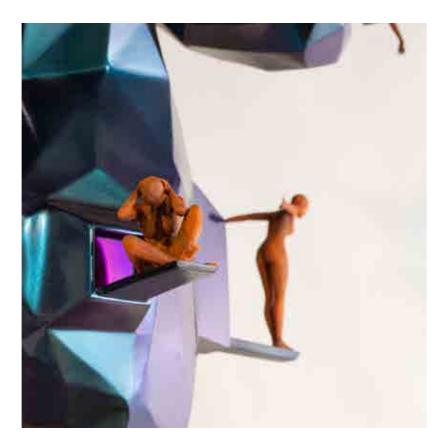

In molti suoi quadri tridimensionali ricorre quella che lui definisce la "teoria del nucleo" secondo la quale morbidi gusci, testuggini rocciose, ma anche lamiere perforate e acuminate, sono le risultanti del senso di protezione, forza e vitalità dietro cui il nostro alter ego trova linfa vitale da un mondo che tenta di allontanarci da esso. Attualmente l'artista collabora con diverse fondazioni e gallerie a livello nazionale. Un motto che ha reso suo è: "Non perdete mai la voglia e l'entusiasmo. Avete ragione voi".
